

HOT 2.6 N 1600 Premium + 3in1 N3 c

WATER BOILERS

PRODUCT-NO.: 203882

Be inspired by hot water in no time

This hot water system is the fast and convenient way to achieve very hot water. It consists of a space saving automatic water boiler, which you can place under the sink, for example, and a 3in1 kitchen tap. A perfect duo that allows you to quickly prepare hot drinks and food or clean very dirty dishes immediately.

Use a constant temperature safely

The automatic water boiler has an electronic temperature control. In this way, the appliance maintains a constant water temperature of up to 95 °C. To use the hot water in the kitchen, the mixer lever tap has a special rotary selector that allows you to draw off the hot water with minimal steam or splashes. The built-in push & turn mechanism provides extra safety.

**HOT 2.6 N 1600
Premium + 3in1 N4 b**
Product-No.: 203883

The main features

System comprising an automatic water boiler and special kitchen tap for cold, warm and hot water
