Installation guide for commercial LED display lights

JCC | a **LEVITON** company

Warnings & Cautions

- To avoid electric shock, serious injury or property damage, isolate power before installing, removing or installing the product.
- It is recommended that luminaires are installed by a qualified electrician and the installation complies with the local current wiring regulations.
- It may be necessary to upgrade your MCBs to allow for increased inrush current.

- Any broken or damaged parts should be replaced as soon as possible. JCC will not accept responsibility for claims arising from sub-standard installations; which will void the warranty.
- These products are designed for connection to a 220-240V~ 50/60Hz.
- This product is for indoor use only.

INSTALLATION

Installation

1. Cut the mounting hole in the ceiling. (JCC recommends that a sample hole is cut in a section of spare material to familiarize yourself with the process) see Fig.1a & Fig.1b.

2. Connect the mains supply as indicated in Fig.2a & Fig.2b.

3. Place fitting into cieling void (Fig.3).

**4.** Reconnect mains power supply and test for operation.
