

MD150WH

MD150CH

The Click® dimmer module mounting kit is double aperture size and is suitable for mounting on all existing MiniGrid™ blank plates, whether they be moulded or decorative metal plates. Please refer to our dedicated range catalogues for product codes of available plates.

The dimmer module mounting kits comprise a module mount frame, operating knob and innovative nut runner to facilitate the fixing of the locking nut. Locking nut and washer supplied with the Click® dimmer modules.

The decorative operating knob and the mount frame are finished in the same design as the selected wall plates. Equally, they may be mounted on contrasting plate finish to produce a particular decorative effect.

Dimmer Module Not Supplied - See Page j38.
Mounting Nut & Washer Supplied with Dimmer Module

MD9014

MD9014 (Back)

- 1 Switch 1 allows the minimum brightness to be adjusted
- 2 Switch 2 allows the dimming mode to be adjusted

Eliminate dimmer flickering

Our new dimmer is much easier to program than regular dimmers because of the two small switches on the back of the module. This allows the dimmer to be programmed without removing from the plate.

Use the nut runner to easily exchange dimmer modules and create customised dimmer switch plate.

Dimmer Modules

- MD9010 1-10V Analogue Dimmer Module (25 x 62mm)
- MD9001 6A 2 Way Push On/Off (Non-Dimming) Module (25 x 62mm)
- MD9022 250W 2 Way Dimmer Module (25 x 62mm)
- MD9042 400W 2 Way Dimmer Module (25 x 62mm)
- MD9014 100W Dual Mode Dimmer Module with Trim (26.5 x 55mm)
Due to the reduced height, the MD9014 is suitable for mounting directly above each other on multi-tier plates.
- SP900 Dimmer M10 Nut Runner Tool
